RE: Comments on Draft Eligible Services List (FCC-05-158), CC Docket 02-6;

Dear Ms. Dortch:

On September 14, 2005, the State E-rate Coordinators' Alliance (SECA) met via teleconference with members of the Wireline Competition Bureau, Telecommunications Access Policy Division, to discuss the Comments that we filed on August 25, 2005 to the Draft Eligible Services List that the Universal Service Administrative Company's (USAC or Administrator) submitted to the FCC and which the FCC issued for public comment. The SECA participants were Gary Rawson, Chair of SECA, Julie Tritt Schell, Debra Kriete, and the FCC participants were Warren Firschein and Cara Voth.

SECA provided an oral presentation consistent with their written Comments. In addition, SECA explained that none of the other parties filing Comments supported the new proposal to require applicants to separately file for Internet access and telecommunications services when they receive a bundled service offering from a vendor. SECA encouraged the FCC to maintain the status quo with respect to the manner in which the Internet access service is competitively bid and discount funding requests are submitted.

Respectfully submitted,

Gary Rawson, Chair  
State E-rate Coordinators' Alliance
